Dear Ms. Dortch:

On behalf of Farmers Telephone Cooperative, Inc. ("Company"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules.<sup>1</sup> Company seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information.<sup>2</sup> The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of the initial section 54.202(a) of its Progress Report on its Five-Year Service Quality Improvement Plan and of outage reporting as required by Section 54.313(a)(1).<sup>3</sup>

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall

2015 ETC Annual Report of Farmers Telephone Cooperative, Inc. (SC)

Request for Confidentiality**

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Farmers Telephone Cooperative, Inc. (the "Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules,<sup>1</sup> withholding from public inspection certain information contained in attachments to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).<sup>2</sup>

1. The information for which the Company is seeking confidential treatment are attachments to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").<sup>3</sup>
2. Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission an initial section 54.202(a) Five-Year Service Quality Improvement Plan ("Five-Year Plan")<sup>4</sup> and must also report outages, both of which are contained in attachments to the 2015 Report.
3. The information contained in attachments for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment. The Company also seeks withholding from public inspection data pertaining to the Company's outages provided at FCC Form 481 Line 200 attachment, Service

<sup>1</sup> 47 C.F.R. §§ 0.457, 0.459.

<sup>2</sup> 47 C.F.R. § 0.459(b)(1) through (9).

<sup>3</sup> 47 C.F.R. §§ 54.313, 54.422.

<sup>4</sup> See *In the Matter of Connect America Fund*, WC Docket No. 10-90, Order DA 14-591 (rel. May 1, 2014).

Outage Reporting. Information of this nature is confidential commercial information routinely withheld from public inspection.

4. With respect to identifying the degree to which the Five-Year Plan concerns a service that is subject to competition, the Line 112 attachment contains information of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment includes competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its *March 5, 2013 Order*, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories."<sup>5</sup> Accordingly, because the Company is a rate-of-return carrier, it must file a five-year service improvement plan which contains proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

With respect to identifying the degree to which the outage data contained in the Line 200 attachment concerns a service that is subject to competition, the information pertains to the network and operations of a telecommunications company that has competitors that could benefit if they were able to have access to this information.

5. With respect to identifying possible exposure to competitive harm, the information contained in the subject attachments is information that is not customarily released to the public. The Five-Year Plan information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.

---

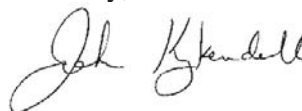

<sup>5</sup> See *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 13-332 (rel. Mar. 5, 2013) ("*March 5, 2013 Order*") at para 9 citing Section 54.202(a) (1) (ii).

6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachments, the Company is filing the Five-Year Plan and outage attachments under seal. The Company uses the information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.
7. Any previous versions of this information are not publicly available.
8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
9. The Commission has previously concluded that there is a presumptive likelihood of substantial competitive harm from disclosure of outage information.<sup>6</sup> The Commission also determined the disclosure of outage reporting information to the public could present an unacceptable risk of more effective terrorist activity and could therefore result in potential harm to the public and the national defense.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment, and to the Company's outage data provided at FCC Form 481 Line 200 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall

**Farmers Telephone Cooperative, Inc.’s demonstration of complying with applicable service quality standards and consumer protection rules for voice and broadband services:**

In establishing this certification in its *2005 ETC Order*,<sup>1</sup> the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”<sup>2</sup> The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis.<sup>3</sup> In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”<sup>4</sup>

Farmers Telephone Cooperative, Inc. (“Farmers”) hereby certifies that it is in compliance with applicable service quality standards and consumer protection rules. Farmers is subject to consumer protection obligations under both federal and South Carolina state law. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the requirements of the Public Service Commission of South Carolina which disclose rates, and terms and conditions of service to customers (Section 103-612.2.1 of the South Carolina Code of Regulations); (2) adherence to state consumer protection requirements governing telephone providers which govern Standards and Quality of Service (Sections 103-661, 103-662, and 103-663 of the South Carolina Code of Regulations); Customer Relations, including billing,

<sup>2</sup> *Id.* at para. 28.

<sup>3</sup> *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

deposits, discontinuance and termination of service (Sections 103-620 through 103-633 of the South Carolina Code of Regulations); Engineering and Safety Standards (Sections 103-640 through 103-646 and 103-670 through 103-672 of the South Carolina Code of Regulations); Inspections and Tests (Sections 103-650 through 103-653 of the South Carolina Code of Regulations); Records and Reports (Sections 103-610 through 103-619 of the South Carolina Code of Regulations) and Customer Complaints (Section 103-628 of the South Carolina Code of Regulations); (3) truth-in-billing requirements (Section 103-622.1 of the South Carolina Code of Regulations); and (4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

Farmers is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in 47 CFR § 8.3. The Company furthermore will comply with all requirements set forth in the 2015 Open Internet Order when it becomes effective.

**Farmers Telephone Cooperative’s demonstration of ability to function in emergency situations for voice and broadband services:**

Farmers Telephone Cooperative, Inc. (“Farmers”) hereby certifies that it is able to function in emergency situations as set forth in 47 C.F.R. § 54.202(a)(2)<sup>1</sup> and Section 103-646 of the South Carolina Code of Regulations. Farmers’ network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2) and Section 103-646 of the South Carolina Code of Regulations. Farmers can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow Farmers to manage traffic spikes throughout its network, as emergency situations require. In addition, Farmers has redundancy for connectivity purposes *via* additional routes and electronic equipment for voice and broadband services.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. Farmers has battery backup at all office locations and in its electronic equipment sites. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment. Generators are installed at all Central Office locations. They will continue to run as long as Farmers has access to fuel.

---

<sup>1</sup> Section 54.202(a)(2) requires ETCs that are designated by the Commission to “demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.”

Lifeline is a federal benefit that makes monthly telephone service more affordable for eligible households. Your household may receive Lifeline on one wireless OR one home telephone, but not both. Your household may not receive the Lifeline benefit from more than one telephone company. For the purpose of Lifeline, a household is an individual or any group of individuals who live together at the same address and share income or expenses. You may not transfer your Lifeline discount to another person, even if he or she is eligible. You may lose your Lifeline benefit and may be prosecuted by the United States government if you violate the one-per-household rule or otherwise make false statements to receive Lifeline.

**FTC****Lifeline Independent Economic Household (IEH) Worksheet**

Lifeline is a government program that provides a monthly discount on home phone or cell phone service. **Only one Lifeline service per household** is allowed under Federal law.

Answer the questions below to determine if there is more than one household living at your address, and if your household already receives Lifeline. Providing false information on this form may result in losing your Lifeline service or criminal penalties.
